About us

LMA Services is a leading UK-based manufacturer, specialising in high-quality aerosol products tailored for the global veterinary market. With decades of experience, we have built a reputation for excellence, innovation, and reliability. Our commitment to quality is demonstrated through our adherence to ISO 9001 and ISO 14001 standards, ensuring our products meet the highest industry benchmarks. As a UK Government Export Champion appointed in 2024, LMA Services is dedicated to expanding our international reach while maintaining our strong British heritage.

Who we are

At LMA Services, we pride ourselves on being a trusted partner to veterinary wholesalers worldwide. We are a British company with a global outlook, combining traditional values with modern innovation. Our team comprises experts in the aerosol industry, driven by a passion for delivering top-tier products that support animal health and wellbeing. With a deep understanding of the unique needs of our customers, we offer tailored solutions that consistently exceed expectations.

Facilities

Our state-of-the-art manufacturing facilities in the UK are a testament to our commitment to quality and efficiency. Equipped with the latest technology, our production lines are designed to meet the rigorous demands of the global veterinary market. We maintain strict quality control processes throughout every stage of production, from sourcing raw materials to the final packaging. Our facilities are fully compliant with ISO 9001 and ISO 14001 standards,

The business

LMA Services is a family owned business that operates at the intersection of quality, innovation, and global reach. We specialise in the production of aerosols for veterinary use, offering a range of products designed to meet the specific requirements of our international clientele. Our business is built on a foundation of strong relationships with suppliers, customers, and regulatory bodies, ensuring that we consistently deliver products of the highest standard. Our commitment to excellence is reflected in our continuous investment in research and development, ensuring that we stay ahead of industry trends and maintain our competitive edge.

Sustainability

At LMA Services, sustainability is at the heart of our operations. We recognise the importance of protecting the environment and are committed to reducing our carbon footprint across all aspects of our business. Our adherence to ISO 14001 demonstrates our proactive approach to environmental management, ensuring that our manufacturing processes are as eco-friendly as possible. We continuously seek innovative ways to reduce waste, conserve resources, and improve energy efficiency. By prioritising sustainability, we not only meet the needs of today but also safeguard the future for generations to come. We run our factory and offices from our solar panels and renewably sourced electricity and are always looking for ways to protect the environment by embracing the latest technology in our industry.

Quality

Quality is the cornerstone of LMA Services. We are committed to delivering products that not only meet but exceed the highest industry standards. Our adherence to ISO 9001 ensures that every aspect of our production process is meticulously monitored and controlled, guaranteeing the consistency and reliability of our products. We take pride in our rigorous testing and quality assurance procedures, which ensure that every aerosol leaving our facility is safe, effective, and fit for purpose. Our reputation for quality is backed by our long-standing relationships with customers who trust us to deliver excellence, time and time again.

Why us

Choosing LMA Services means partnering with a company that values quality, reliability, and customer satisfaction above all else. Our extensive experience in the aerosol industry, combined with our commitment to innovation and sustainability, makes us the ideal choice for veterinary wholesalers worldwide. As a UK Government Export Champion, we have a proven track record of success in international markets, offering products that meet the diverse needs of our global customers. Our dedication to quality, coupled with our competitive pricing and excellent customer service, ensures that we are the preferred supplier for many in the veterinary sector.

History

LMA Services has a rich history of innovation and growth. Founded with a vision to provide high-quality aerosol products to the veterinary market, we have grown from a small UK-based company into a globally recognised brand. Over the years, we have continually adapted to meet the changing needs of the industry,

investing in new technologies and expanding our product range. Our journey has been marked by a commitment to quality, customer satisfaction, and sustainable practices. As we look to the future, we remain dedicated to upholding the values that have made us a trusted name in the aerosol industry.

Exports

LMA Services is proud to be a leading exporter of aerosol products, with a presence in markets across the globe. Our international success is underpinned by our commitment to quality and our ability to meet the specific needs of different regions. As a UK Government Export Champion, we have been recognised for our

contribution to the UK's export economy, and we continue to expand our global footprint. We understand the complexities of international trade and are well-versed in navigating the regulatory requirements of different countries, ensuring a smooth and efficient export process for our customers.

Regulations

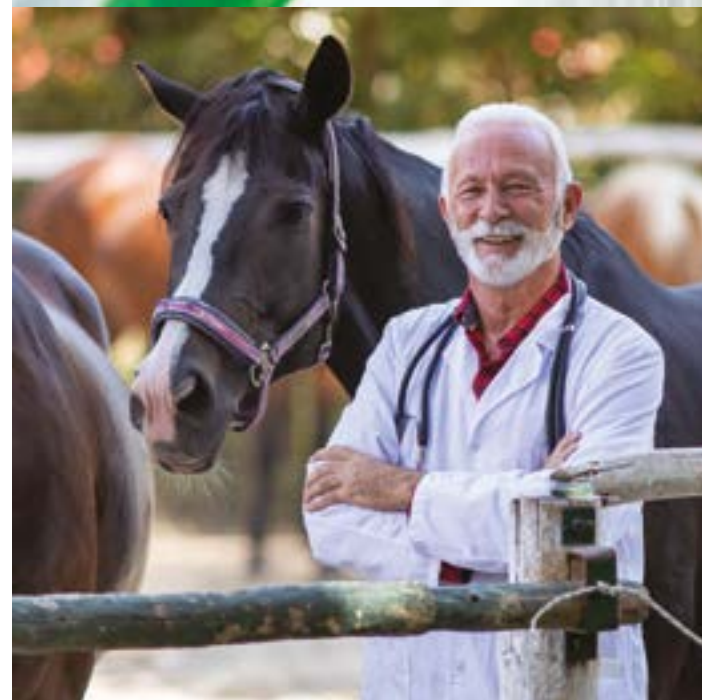

At LMA Services, we prioritise full compliance with all relevant regulatory standards to ensure the safety, efficacy, and legal conformity of our products.

Our aerosols are manufactured in line with UK and international veterinary, biocidal, and *GHS (Globally Harmonised System) regulations.

We also adhere to strict labelling requirements to ensure our products are correctly and transparently marked for safe use.

Many of our products meet or exceed the highest industry benchmarks, including approval to BS EN 1276, BS EN 1650, and BS EN 14476, which demonstrate their efficacy against bacteria, fungi, and viruses respectively.

Our ongoing commitment to compliance with these rigorous standards ensures that our products consistently meet the needs of the global veterinary sector, providing peace of mind to our customers.

Aluminium Spray - AS1

The Aluminium Spray is an easy-to-use, water resistant topical spray that creates a protective barrier for wounds on both small and large animals. Aluminium Spray is an ideal product for the proper protection and healing of wounds caused by common injuries and accidents in animals. Aluminium Spray protects hairless areas of the skin with a thin metallic, flexible film allowing the skin to breathe, reducing the risk of reinfection.

200ml	Steel	12	LA120052132	2604	

Udder Mint Spray - UM1

The Udder Mint Spray is formulated to sooth and soften swollen and sore udders. Especially good around calving time as it is designed to maintain udder health by increasing blood circulation which increases the cow’s natural self-defence mechanism.

- Natural White | Peppermint & Menthol Scented
- Ambient Temperature Range
- Moderate to Hot Climate/Seasons
- To be stored below 50°C
- Suitable for Equestrian, Bovine, Porcine, Ovine
- This can be made more active/medicated upon request

Aerosol Size	Aerosol Type	Qty Per Box	Part Number	Qty per Pallet	HS Code
400ml	Steel	12	UM140065157	1728	340290

Wound Spray - WS1

The Wound Spray is an antiseptic, highly effective antibacterial and anti-fungal spray for minor cuts, grazes and wounds. For an effective cleansing spray, our Wound Spray kills germs and helps against reinfection. After spraying, the formula dries quickly to form a long-lasting, durable film to protect the wound, keeping out bacteria, with minimal inconvenience to the animal.

Tail Paint - TP1

The Tail Paint is the result of extensive UK testing and years of development, helping with cattle management. Applied to the tail, this non-toxic solution offers a visual clue of mating activity, aiding in-heat detection even in remote locations. Proven effective, it optimizes breeding programs, boosting herd productivity. Its reliable performance stems from rigorous testing and a commitment to innovation, providing cattle farmers with a powerful tool developed to withstand real-world challenges. Trust LMA's Tail Paint for efficient cattle management, a solution that has stood the test of time and innovation.

Animal Marker - AM1 + AM2

Our animal markers are designed for efficient animal identification and management tasks, including scanning, lambing, and medical tracking. Delivered in a non-harmful aerosol, they provide excellent results on both wet and dry fleeces and are fully scourable, ensuring they don't damage the wool. Formulated with lead-free pigments, our high-performance markers offer both short-term (AM1) and long-term (AM2) durability, depending on your needs.
